

# Rain, Fog and Snow

## BAD WEATHER?

- Slow down.
- Allow extra time.
- Leave extra distance between you and the car ahead.
- Gently apply brakes to avoid skids.
- Open window a crack if caught in stalled traffic to avoid carbon monoxide poisoning.

## BAD WEATHER CHECKLIST

- Tires with plenty of tread
- Windshield wipers in good condition
- Washer full of fluid
- Gas tank full
- Defroster working
- Muffler and exhaust in good condition
- Antifreeze in radiator

### Carry:

- Tire chains and tighteners
- Flashlight and batteries
- Flares
- Small shovel
- Windshield scraper
- Warm, waterproof clothing
- Blankets, snacks and drinking water

## CALL AHEAD FOR ROAD CONDITIONS

California road info from California telephones  
**1-800-427-7623 (ROAD)**

California road info from outside California  
**1-800-445-1534**

Nevada road info  
**1-877-687-6237**

Updated weather info also is available on the Internet:  
**[www.chp.ca.gov](http://www.chp.ca.gov)**  
**[www.dot.ca.gov](http://www.dot.ca.gov)**

# Rain

- Drive with headlights on.
- Stay alert for vehicle hydroplaning.
- Apply brakes more slowly; they may pull.

- Leave extra distance between your car and the next motorist.

# Fog

- Drive with lights on LOW beam. (It is illegal to drive with parking lights on.)
- Watch for CHP pace vehicles to guide you through fog.
- Avoid crossing traffic lanes.
- Don't stop on highways except in emergencies.
- Move away from stalled or disabled vehicle.
- Consider postponing trip until fog clears.

Be aware  
smoke and  
dust are  
as deadly  
as fog.

# Snow

- Carry chains in snow conditions, even if vehicle has 4-wheel drive. It's the law.
- Observe speed limit in chain control areas--25 mph on two-lane roads and 30 mph on multi-lane roads.
- Check owner's manual for operating tips on your vehicle's braking system.
- Watch for paddle-shaped markers--they show the road's edge.
- Studded tires may be used between November 1 and April 1 only.
- Stay with your vehicle if you break down.

## CHAIN REQUIREMENTS

"R" ratings on snowy roads indicate chain requirements for various conditions.

Most vehicles come equipped with snow tires. Look for M&S (mud and snow), All Season, or All Terrain, on side of tire.

**R-1** chains required except for vehicles with snow tires (chains required for any vehicle pulling a trailer)

**R-2** chains required except for 4-wheel drive with snow tires

**R-3** chains required for all vehicles

## CHAIN INSTALLATION SERVICES

Chain installers are not state employees. They are licensed workers required to display permit on their jacket. Fees must be posted and a receipt given for payment. Chain installers are not permitted to sell chains.

## CHAINING UP

- Move out of vehicle lanes.
- Park off roadways, freeways and access ramps.
- Park out of path of snow removal equipment.
- Install chains on vehicle drive tires.

Additional information regarding chain requirements in California may be found on the Internet at: [www.dot.ca.gov](http://www.dot.ca.gov)
